

The National Disaster Life Support

National Training Center-West

Training Newsletter – October-December 2016

The NTC-West

Welcome to the second edition of the NDLS National Training Center-West newsletter! Feedback has indicated this is best presented in a quarterly format.

In this publication I hope to keep you current on what NDLS and the NTC-West is up to! Trainings and new developments as they are booked and brought online!

Additional information and training calendars can always be found at both the NTC-WEST website at www.NDLS.US and the NDLS Foundation LMS website at <http://register2.NDLSF.org> for all eighty-two U.S. Training centers and the twenty Global Training Centers.

Give us a call if we can help with your training needs or you have any questions concerning the NDLS series of training courses.

<p>April 2017 04/18 BDLS – UTSW, Dallas, TX</p>
<p>July 2017 TBD – BDLS – Kanazawa, Japan</p> <div style="text-align: center;">  </div>

CORE COURSES	
<p>NDLS® Version 3.2 is here and available from the NDLS National Training Center-WEST. The slide-sets for the Basic and Advanced courses, – BDLS® (Basic Disaster Life Support) and ADLS® (Advanced Disaster Life Support), have now been updated and revised to the 3.2 version. Now more topical and relevant than ever, the NDLS courses build a foundation for response and mitigation of disasters and public health emergencies through All-Hazards training. CDLS® (Core Disaster Life Support) stands at version 3.1.</p> <p>CDLS® 3.1 http://www.ndls.us/CDLSinfo.htm BDLS® 3.2 http://www.ndls.us/BDLSinfo.htm ADLS® 3.2 http://www.ndls.us/ADLSinfo.htm</p>	<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;">  </div> <div style="text-align: center;">  </div> </div> <div style="text-align: center; margin-top: 20px;">  </div>

Old News

Two new hi-fidelity simulators have been added to the NTC-WEST toy box. Replacing

our aging METI ECS simulators (roughly 110 years old in simulator years ☺) are two brand new CAE/METI MetiMan Pre-Hospital simulators. They have been used several time now and are working great! The new model is wireless and much more portable than the ECS.

Customizable brochures and flyers are available from the NTC-W for your use in publicizing your courses. Samples are available at www.NDLS.US at the bottom of the home page and elsewhere throughout the site.

New News

The NTC-WEST is pleased to announce a new service for our clients. AV production and post-production services have been added to the list of services provided by the NTC-WEST. These services will be contracted and priced on a case-by-case basis and are available to all clients who have an interest/need.

Some possibilities include;

- Record and review *your* training exercises
- Training Videos
- Documentation
- Advertise
- Public Service Announcements/Videos
- Podcasts
- YouTube Posts
- Record and review your NDLS training exercises

Click [HERE](#) for additional information!

UPDATE: DJI Quadcopter – 4k Air Camera Added!

Moulage for ADLS and Mass Trauma Training Exercises

Quick, effective, first glance realistic, Moulage is essential to the success of the ADLS Mass Casualty/Mass Triage exercise or any Mass Casualty exercise based on mass trauma situations.

We have begun production of *Moulage for ADLS and Mass Trauma Training Exercises*. This training video will be available to anyone who wants to up their moulage game for any training exercise. The video will emphasize speed of application and how to deal with a large number of “victims”. Simple, effective techniques that will provide the “first glance realism” so necessary to obtain that essential “BUY-IN” from your Students/Responders. Video will be shot in 1080P High Definition and will be available in multiple formats.

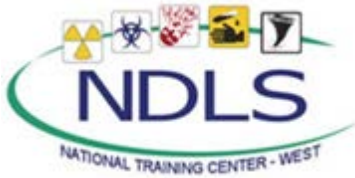

This project is being scripted now for an expected release early 2017

The video will feature;

- Building Scenarios – Victim Profiles
- Addressing Safety Concerns
- Necessary Equipment and Supplies – Set-Up
- Developing/Applying the right injuries for the scenario
- Quick, Effective Techniques for applying;
 - Burns – Contusions – Lacerations – Compound Fractures – Amputations – Facial Trauma – More....
- Instructions for prepping the “VICTIMS” and the “Responders”
- Clean-Up

Video will be available on DVD - BD – Flash Drive

USING HOMELAND SECURITY GRANT MONIES?

All three of the NDLS Courses (CDLS, BDLS, and ADLS) have been approved by the Department of Homeland Security.

They are identified by the following Course Numbers:

Core Disaster Life Support (CDLS)	OK-006-RESP
Basic Disaster Life Support (BDLS)	OK-008-RESP
Advanced Disaster Life Support (ADLS)	OK-007-RESP

This approval enables Homeland Security training funds to be used in support of the courses.

We would like to acknowledge, with thanks, the efforts of **Brandi Pond** for managing the submission and review process. Her efforts extended over a period of several years to obtain this approval.
